

CONSUMERS WANT FAST DELIVERY

The race to satisfy the ever more impatient consumer

15 MIN
1MI / 1.6KM

30 MIN
2MI / 3.2KM

FAST DELIVERY REQUIRES PHYSICAL PROXIMITY

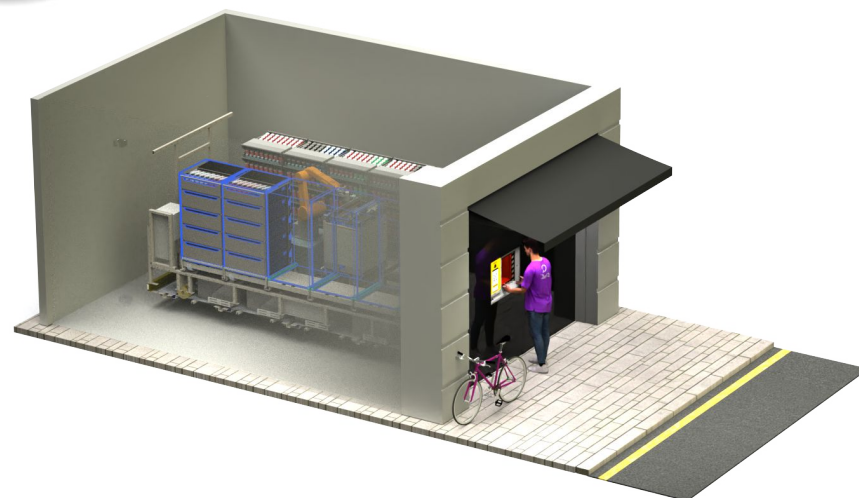

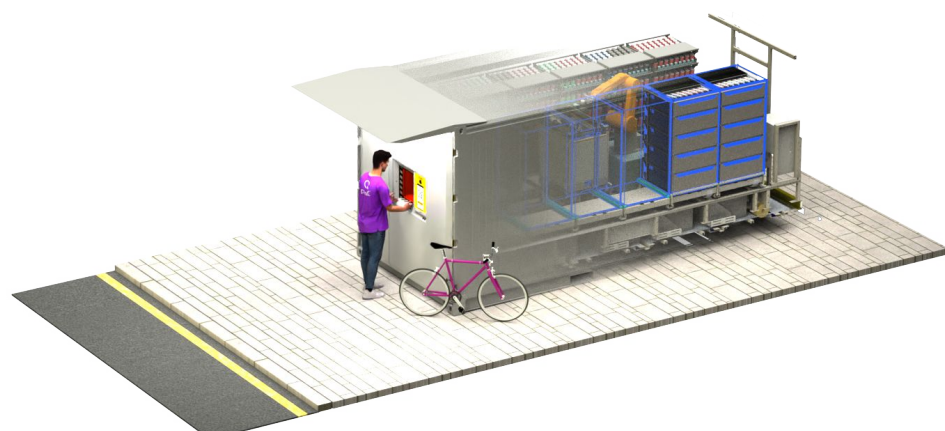

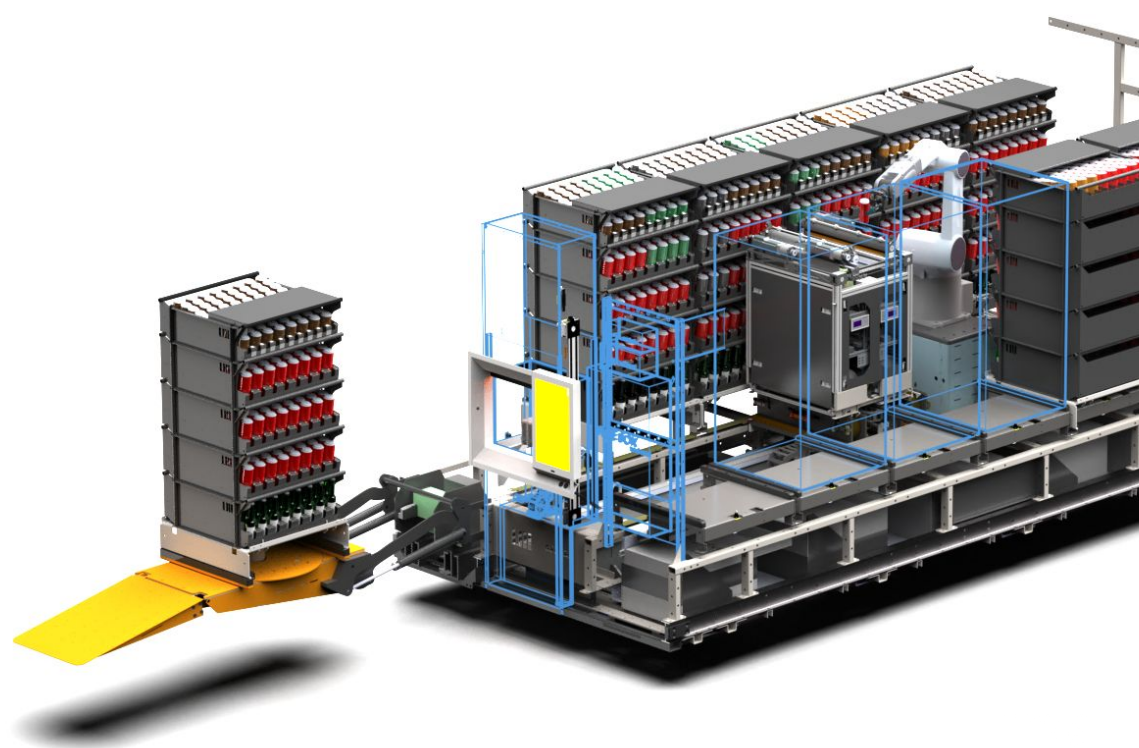

PHYSICAL PROXIMITY IS AN OPERATIONAL HELL AT SCALE

X10,000

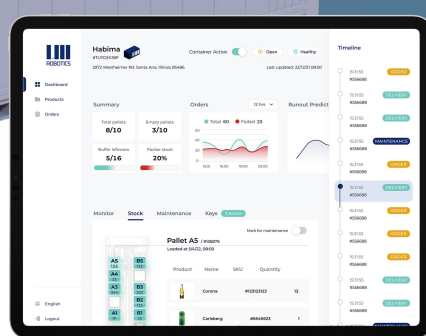

- Find a space
- Floor planning
- Renovate
- Rent and Tax
- Hire and train
- Shift work
- Error and loss
- Replenish

DARK STORE AS A PRODUCT (NOT A PROJECT);

Automation used to be a complex project taking 1000 sqm and a year to set up; The next-gen Dark Store is now a product taking ±20 sqm and easily set up in hours!

A STAND-ALONE DARK STORE, DEPLOYABLE ANYWHERE OR INTEGRATABLE INTO ANY RETAIL SPACE

- ANALYTICS
- DELIVERY OPERATIONS
- ACCESS CONTROL
- STOCK PREDICTION
- DEMAND
- SECURITY
- FINANCE
- QUALITY CONTROL
- REPLENISHMENT

GLOBAL INSTANT FULFILLMENT INFRASTRUCTURE (AS A SERVICE)

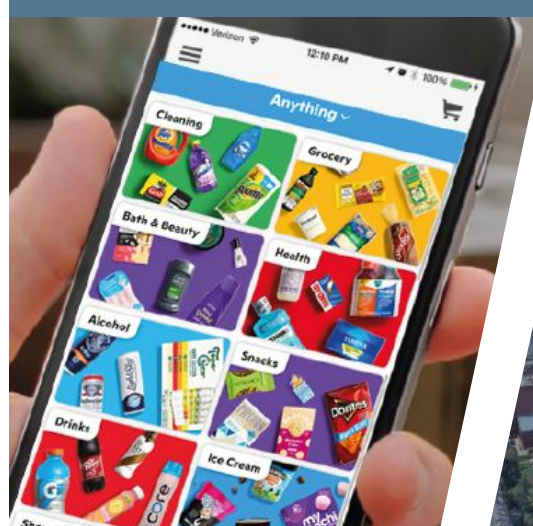

Software & Hardware to power a new ecommerce revolution

1. Customer places an order on your e-commerce channel (web, mobile app, etc.)

2. 1111Robotics' system receives the order data through API integration

3. Our robotics start the picking process in order to prepare the order for delivery/collection

4. Your picker runs through a guided process (goods-to-person), enabling a smooth handover to the delivery driver or customer collection (click & collect)

Order placed successfully!
