LIGHT TAG SMART 'N' LIGHT

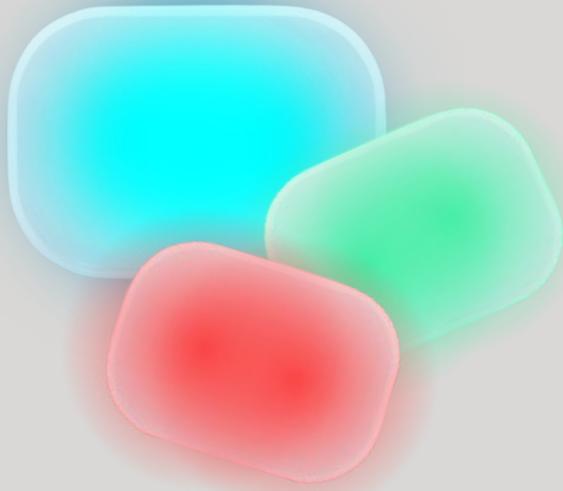

PICKING

SMART

AND

LIGHT

KEY FEATURES LIGHT TAG

80% EFFICIENCY INCREASE
 ALL COLORS AND PATTERNS
 EASY PAIRING
 LONG BATTERY LIFE
 NO INTEGRATION EFFORT

NO INTEGRATION EFFORT - the smart is in the HS 50 and the LIGHT TAG communicates with it

EASY PAIRING - the LIGHT TAG and the corresponding storage location are scanned and finally paired

EFFICIENCY INCREASE - with the LIGHT TAG an efficiency increase of 80% is achieved

ASSEMBLY - the LIGHT TAG is attached to the storage rack via an adhesive strip or magnet

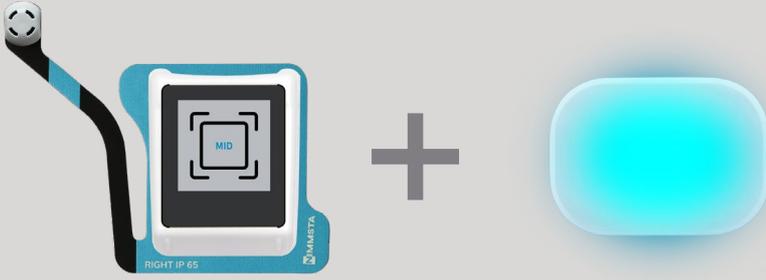

COLORS AND PATTERNS - the LIGHT TAG can display any color and pattern

BATTERY LIFE - the life of the battery is 3 - 5 years

HOW TO

INDUSTRIAL SMART WATCH + LIGHT TAG

HS 50 & LIGHT TAG

The combination of the smart HS 50 and the LIGHT TAG is a stroke of genius. In the LIGHT TAG are installed LEDs, which can shine in different colors and patterns.

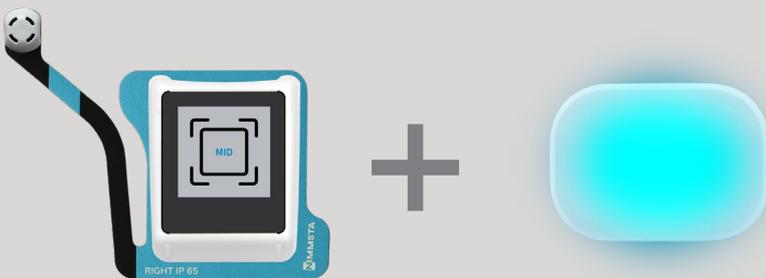

EASY PAIRING

EASY PAIRING

First the LIGHT TAG is scanned with the HS 50, then the storage location and finally the pairing button on the HS 50 must be pressed. Ready.

80% MORE EFFICIENT

80% MORE EFFICIENT

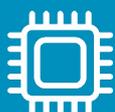

When the worker is sent to Location 1 via the NIMMSTA Smart Watch and approaches within a 10 meter radius of Location 1, the NIMMSTA HS 50 and the LIGHT TAG light up in the same color. This makes the workflow up to 80% faster, because the storage location is immediately visible. In addition, there is no integration effort.

3 -5 years

LEDs light up in all colors

Proprietary hardware

Configurable via NIMMSTA APP

Bluetooth 5.0 Low E / NFC
